Research programmes

Soils and soil-vegetation interactions

- Theme 1.1 Physicochemical processes affecting soil-water interactions**
Issue 1 1 1 Solid-solution partitioning of chemical species
Issue 1 1 2 Organic matter decomposition and the production of humic substances
- Theme 1 2 Biologically mediated soil processes**
Issue 1 2 1 Activity and diversity of key functional populations
Issue 1 2 2 Trophic interactions in soils and their influence on soil organic matter production and degradation
-

Land use science

- Theme 2 1 Long-term and large-scale monitoring of land use**
Issue 2 1 1 National-scale survey of land use and cover
Issue 2 1 2 Remote sensing of land use and cover
Issue 2 1 3 Monitoring and evaluation of land use policies
- Theme 2 2 Land use systems**
Issue 2 2 1 Environmental impacts and management of farming systems
Issue 2 2 2 Environmental impacts and management of forestry systems
Issue 2 2 3 Impacts of land use (change and management)
Issue 2 2 4 Development of land use and water resource management strategies
Issue 2 2 5 Environmental impact, coastal zone survey and management
- Theme 2 3 Management of ecosystems in tropical regions**
Issue 2 3 1 Management and restoration of forests and drylands
Issue 2 3 2 Agroforestry
- Theme 2.4 Landscape function and modelling**
Issue 2 4 1 Modelling spatial processes
Issue 2 4 2 Applied landscape ecology
-

The urban environment

- Theme 3.1 Patterns of urban land/water use and associated habitats**
Issue 3 1 1 Pattern and distribution of urban habitats in relation to past and present land/water use
- Theme 3.3 The distribution and dynamics of atmospheric pollution**
Issue 3 3 4 Measurement of direct effects of hydrocarbons on vegetation
- Theme 3.4 Urban water dynamics, risk and hazard**
Issue 3 4 2 Floods and pollution flushes
-

Freshwater resources

- Theme 4.6 Fish dynamics**
Issue 4 6 1 Fish population dynamics
-

Biodiversity and population processes

- Theme 5.1 Biodiversity characterisation, pattern and monitoring**
Issue 5 1 1 Species richness in relation to environmental factors
Issue 5 1 2 Biodiversity of communities and resilience to environmental change
- Theme 5 2 Ecosystem function and biodiversity**
Issue 5 2 1 Trophic interactions and ecosystem function insect-plant interactions
- Theme 5.3 Population processes underlying biodiversity**
Issue 5 3 1 Organism responses, fitness and demographic functions
Issue 5 3 2 Interactions between demes, local populations and greater populations
Issue 5 3 3 Interactions between populations of different species
Issue 5 3 4 Comparative population and community processes
- Theme 5 4 Conservation and restoration of biodiversity**
Issue 5 4 1 Single-species conservation programmes monitoring and evaluation
Issue 5 4 2 Ecology of introduced species
Issue 5 4 3 Habitat creation and restoration
Issue 5 4 4 Wetland management and restoration
-

Pest and disease control

- Theme 6.3 Environmental impact of GMOs and potentially invasive species**
Issue 6 3 1 Gene flow in natural plant populations
-

Theme 7.1 Radionuclides

- Issue 7 1 1 Parameterisation of radionuclide contamination and transfer
- Issue 7 1 2 Incorporation of spatial variability
- Issue 7 1 3 Improving estimation of radiation doses
- Issue 7 1 4 Development of countermeasures
- Issue 7 1 5 Collaboration

Theme 7.2 Acidifying pollutants

- Issue 7 2 1 Emissions
- Issue 7 2 2 Atmospheric chemistry and transformations
- Issue 7 2 3 Deposition
- Issue 7 2 4 Impacts on soil–plant systems
- Issue 7 2 5 Surface water and catchment-scale impacts
- Issue 7 2 6 Modelling
- Issue 7 2 7 Critical loads

Theme 7.3 Photochemical oxidants

- Issue 7 3 1 Atmospheric transformations and transport
- Issue 7 3 3 Impacts on vegetation, materials and human health

Theme 7.4 Toxic metals

- Issue 7 4 1 Transport and deposition
- Issue 7 4 2 Soil and aquatic processes and soil–plant transfers
- Issue 7 4 3 Transfer to animals
- Issue 7 4 4 Ecotoxicology and environmental standards

Theme 7.5 Organic pollutants

- Issue 7 5 1 Monitoring
- Issue 7 5 2 Transport and food-chain transfer
- Issue 7 5 3 Biological degradation and transformation
- Issue 7 5 6 Ecotoxicology and environmental standards

Theme 8.3 Understanding and modelling the role of rare events on ecological systems

- Issue 8 3 1 Rare events and ecological processes
- Issue 8 3 3 The ecological repercussions of floods and droughts

Theme 9.1 Greenhouse gas budgets and cycles

- Issue 9 1 1 Global atmospheric CO₂ monitoring
- Issue 9 1 3 Net CO₂ fluxes for UK vegetation and soil
- Issue 9 1 4 Exchange mechanisms in high-latitude wetlands
- Issue 9 1 5 Greenhouse gas emissions for the whole UK
- Issue 9 1 6 Soil sinks of methane

Theme 9.2 Land–atmosphere–ocean interactions

- Issue 9 2 1 Improved hydrological representations with GCMs
- Issue 9 2 4 Dynamic ecosystem modelling

Theme 9.3 Forecasting and detecting the impacts of global change

- Issue 9 3 2 Impacts on the distribution, abundance and behaviour of species and communities
- Issue 9 3 3 Impacts on the pools and fluxes of carbon and nutrients in ecosystems

Theme 10.1 Environmental assessment, economics and history

- Issue 10 1 1 Environmental valuation and quantitative prediction of environmental impacts
- Issue 10 1 4 Historical land use change and environmental policy

Theme 10.2 Remote sensing

- Issue 10 2 1 Development, calibration and validation of remote sensing systems and data products
- Issue 10 2 2 Algorithms and models for estimation of biophysical variable
- Issue 10 2 3 Use of remote sensing for distributed hydrological and ecosystem modelling
- Issue 10 2 4 Generic data products from earth observation
- Issue 10 2 5 Infrastructure facilities

Theme 10.3 Instrumentation

- Issue 10 3 1 Intelligent sensor clusters

Theme 10.4 Biotechnology development

- Issue 10 4 1 Virus replication

Theme 10.5 Analytical chemistry

- Issue 10 5 2 Organic matter quality and characterisation
- Issue 10 5 5 Sample matrices
- Issue 10 5 6 Field analytical techniques
- Issue 10 5 8 Stable isotope facility

Theme 10.6 Databases and reference collections

- Issue 10 6 1 Integrity and accessibility of databases and collections within CEH
- Issue 10 6 2 Monitoring environmental change
- Issue 10 6 3 Environmental management

Theme 10.7 Biometrical applications, research and development

- Issue 10 7 1 Biometrical collaboration
- Issue 10 7 2 Application and development of biometrical methods
- Issue 10 7 3 Statistical training

Pollution**Environmental risks and extreme events****Global change****Integrating generic science**

Publications by ITE staff

- Refereed papers in journals
- Books, book chapters, conference proceedings, papers and summaries
- Contract reports

ITE publications for sale

Titles published in 1997–98

APPENDIX 5

Publications by staff at 31 March 1998

Refereed papers in journals

- (Aminah, H.), Dick, J. McP. & (Grace, J.) 1997 Rooting of *Sborea leprolosula* stem cuttings decreases with increasing leaf area *Forest Ecology & Management*, 91, 247–254
- (Appleby, B.) & Redpath, S. M. 1997 Indicators of male quality in the hoots of tawny owls (*Strix aluco*) *Journal of Raptor Research*, 31, 65–70
- Arah, J. & (Hodnett, M.) 1997 Approximating soil hydrology in agroforestry models *Agroforestry Forum*, 8, 14–17
- Arah, J. R. M., Thornley, J. H. M., (Poulton, P. R. & Richter, D. D.) 1997 Simulating trends in soil organic carbon in long-term experiments using the ITE (Edinburgh) Forest and Hurley Pasture ecosystem models *Geoderma*, 81, 61–74
- Arah, J. R. M. 1997 Apportioning nitrous oxide fluxes between nitrification and denitrification using gas-phase mass spectrometry *Soil Biology & Biochemistry*, 29, 1295–1299
- (Bates, J. W., Proctor, M. C. F.), Preston, C. D., (Hodgetts, N. G. & Perry, A. R.) 1997 Occurrence of epiphytic bryophytes in a tetrad transect across southern Britain 1. Geographical trends in abundance and evidence of recent change *Journal of Bryology*, 19, 685–714
- (Baxter, R.), Ashenden, T. W. & (Farrar, J. F.) 1997 Effect of elevated CO₂ and nutrient status on growth, dry matter partitioning and nutrient content of *Poa alpina* var. *vivipara* L. *Journal of Experimental Botany*, 48, 1477–1486
- (Beaverstock, J., Bell, M., Child, L., Evans, D.) & Sheail, J. 1997 The National Forest and global environmental sustainability *European Environment*, 7, 54–62
- Bell, S. & Ashenden, T. W. 1997 Spatial and temporal variation in nitrogen dioxide pollution adjacent to rural roads *Water, Air and Soil Pollution*, 95, 87–98
- (Bentley, G. E., Goldsmith, A. R., Juss, T. S.) & Dawson, A. 1997 The effects of nerve growth factor and anti-nerve growth factor antibody on the neuroendocrine reproductive system in the European starling *Sturnus vulgaris* *Journal of Comparative Physiology A*, 181, 133–141

New titles published by the Stationery Office in 1997-98

Birds of prey and red grouse

S M Redpath & S J Thirgood

One of the most topical issues in upland land management concerns the relationship between birds of prey and red grouse. Birds of prey are of great conservation interest, while grouse are important to the economy of many upland estates. The persecution of birds of prey, which stems from concerns about their impact on viable moorland management, has generated conflict between conservation and grouse shooting interests. This publication describes the results of a study which examined the impact of raptor predation on red grouse numbers. The study was based at Langholm in south-west Scotland, but was also extended, in part, to five other study moors elsewhere in Scotland.

Effect of habitat loss and change on waterbirds

J D Goss-Custard, R Rufino & A Luis (eds)

These are the proceedings of the 10th International Waterfowl Ecology Symposium, which was held at the University of Aveiro, Portugal, 18-21 September 1995. The Symposium covered many aspects of the ecology of waterbirds, but the papers in these proceedings address the plenary theme of the Symposium: approaches to predicting the effects of habitat loss and change on populations of waterbirds and to detecting when populations have been affected.
